

Fight Climate Change

In this session, Green Leap talks about climate change and the importance of sustainable living. We provide you with an overview of our climate crisis and suggest ways you can go green at home. We cover the following at this eco party:

- What is climate change?
- Practical ways to fight climate change at home
 - Climate Change Action List
 - Valuable Resources

Eco Parties!

Our eco parties are a **fantastic** way to learn about green living.

Each party is designed to be informative, fun and inspiring. If you want to adopt a more sustainable way of life then you'll love our eco parties! Basic information:

- Sessions can be hosted in homes and workplaces
 - Each session runs for about 2 hours
 - You need a minimum of 5 attendees (including yourself)
- All hosts receive a special eco gift and can earn generous rewards!
 - Helpful information sheets are provided
- Ask us about our fundraising option for community groups and schools!
